

High Pressure Screw Compressor (20 - 40 Bar)

PET, High pressure testing and many special industries requires 20 bar to 40 bar high pressure air. Comparing to traditional high pressure piston compressor, High pressure Screw Compressor has less maintenance parts, lower noise, better stability.

Model	Motor	Capacity	Pressure	Dimension	Pipe	Weight
	(KW)	(m ³ /min)	(Bar)	(L×W×H)mm		(kg)
DHH-75TPM	75	6	20-40	2100*1350*1680	G2	1650
DHH-90TPM	90	8	20-40	2400*1550*1800	DN65	2200
DHH-110TPM	110	10	20-40	2400*1550*1800	DN65	2300
